

#### Official statement

The ISIC Association strongly condemns any violence, aggression and war everywhere on our planet. The ISIC Association was formed almost 70 years ago following the 2nd World War in the hope of facilitating better cross border understanding and to foster bonds between the student and youth of different nations and cultures. We stand by this mission still today and we further encourage our members, especially those who are willing to play proactive roles, to do so as much possible in supporting those in need during any humanitarian crisis.
